Introduction

Dear Friends,

As we close another year, we are proud to share the 2023 Activity Report of the European Integration Group (EIG). This year, our focus has been on building strong partnerships and creating meaningful impact through Capacity Building in the field of Youth.

Through our initiatives, we have worked tirelessly to equip young people with the skills, opportunities, and networks they need to drive positive change in their communities. By fostering collaboration at both national and international levels, we have strengthened our commitment to youth empowerment and cross-border cooperation.

Our journey would not have been possible without the dedication of our partners, supporters, and—most importantly—the young changemakers who continue to inspire us every day. Their enthusiasm and commitment to shaping a better future remind us why our work matters.

We invite you to explore this report to see the milestones we have achieved together and to envision the possibilities ahead.

Projects

Jovid19

The project "Transforming COVID-19 into an Opportunity" aims to empower youth by bridging the digital skills gap through creative sector training. It addresses challenges posed by the pandemic, fostering collaboration between youth and businesses for inclusive digital job creation. Activities include skill-building, policy advocacy, and innovative platforms.

Life Boat

The Lifeboat project addresses challenges faced by young refugees and migrants by fostering inclusion through innovative youth work methods. It brings local and migrant youth together for collaborative activities, aiming to create a sense of belonging, reduce discrimination, and promote social cohesion.

Social Buzz

Social BUZZ is a strategic partnership project aimed at boosting entrepreneurship of youth with fewer opportunities by providing youth workers with tools to teach & mentor this vulnerable group. The partnership supports youth on their path to stable income through the development of their business ideas.

Projects

Digital Wise

The Digital Wise project addresses digital inequalities among European youth by enhancing digital literacy and skills. Through consultations, peer-to-peer learning, and policy recommendations, it empowers vulnerable youth, promotes inclusion, and fosters active citizenship, contributing to the EU's digital and social agendas.

Inner Peace

The Inner Peace project focuses on equipping youth workers with tools to address post-conflict trauma through mindfulness and peace-building activities. By fostering collaboration across diverse regions, it aims to promote mental health, democracy, and inclusion while enhancing youth resilience and social cohesion.

Peace at Home, Peace in the World

"Peace at Home, Peace in the World" empowers youth as agents of peace, addressing conflict and post-trauma through training and intercultural exchange. By fostering dialogue, inclusion, and understanding, it aims to build resilience, combat discrimination, and promote sustainable peace in communities across Europe and the Middle East.

Projects

Welcome Positive Youth Attitude

Welcome Positive Attitude for Youth aims to foster resilience and self-awareness among young people through non-formal education and workshops. It empowers them to embrace positive mindsets, tackle challenges, and build a supportive community, promoting mental well-being and active participation in society.

I Spot Sport

I Spot Sports promotes inclusion and diversity by integrating ethno-sports into youth work practices. The project enhances the skills of youth workers and trainers, fosters intercultural dialogue, and builds strong networks. By preserving cultural heritage, it empowers marginalized youth through innovative, sports-based approaches to inclusion.

You-CYCLE

YOU-CYCLE begins with mentorship, connecting marginalized youth with local changemakers to foster green skills and entrepreneurship. Through circular economy training, it empowers youth workers and participants to drive sustainable initiatives, create job opportunities, and promote inclusion and environmental awareness

EVALUATION OF PROJECTS BY PARTICIPANTS

At EIG, we believe that true impact is built on the foundations of hard work, trust, and reliability. Over the past five years, we have cultivated strong partnerships in the youth and social sectors, working hand in hand with organizations, institutions, and communities across Europe and beyond. Our commitment to sustainability—both in the relationships we nurture and the projects we implement—has been the driving force behind our growth and success.

Partnerships are not just about collaboration; they are about shared visions, mutual accountability, and long-term dedication to creating meaningful change. Whether through EU-funded projects, grassroots initiatives, or cross-sector alliances, our network continues to expand, bringing together changemakers who share our passion for innovation, inclusion, and social good.

As we reflect on our journey and look ahead, we remain committed to strengthening these bonds, building bridges between ideas and action, and ensuring that every partnership leaves a lasting impact on the communities we serve.

Digital Impact

04

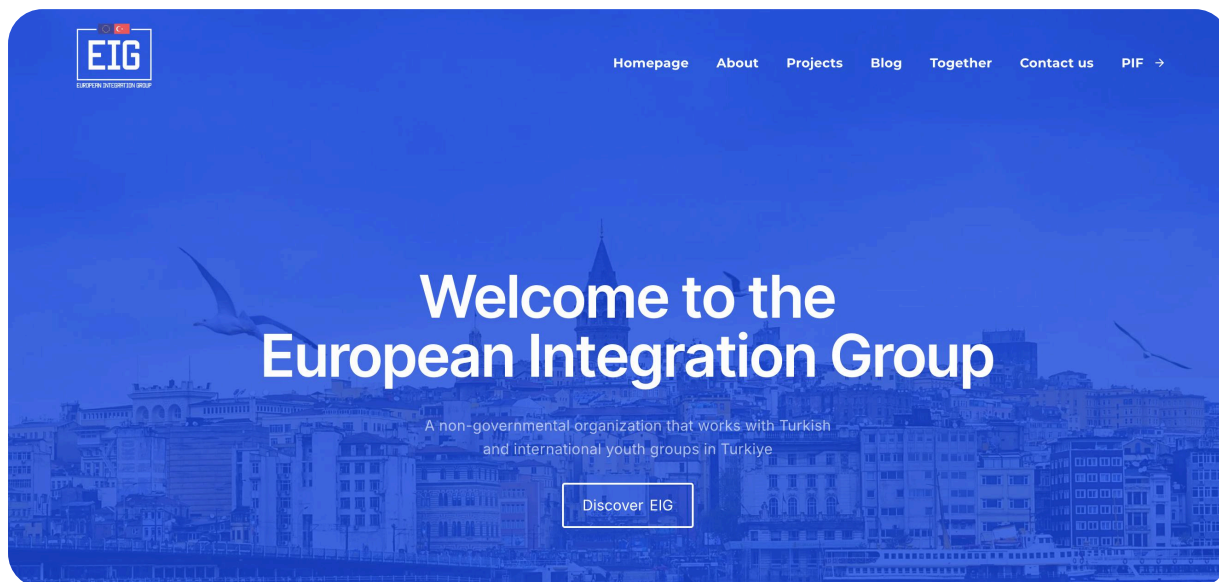

A large group of young adults, mostly wearing white t-shirts with handwritten text, posing enthusiastically in front of a modern building with blue accents. Many are making peace signs or raising their hands. A large blue banner is visible in the foreground. The text "Together for new Growth" is written in a cursive font in the top right corner.
